Chattanooga has a very rich history, both proud and ugly. This memorial to Ed Johnson was dedicated last year to the memory of an innocent man who was falsely accused and wrongfully killed.

The men responsible were later found guilty by the Supreme Court.

In 2000 Hamilton County Judge Meyer declared that Johnson was in fact innocent almost 100 years later.

Although we couldn't save Johnson from the angry mob, we can remember his legacy, and look back on history to never repeat it.

February is American Heart Month

February is American Heart Month! February 4th is National "Wear Red Day" to raise awareness about heart disease and high blood pressure, which contribute to killing almost one in three people!

Heart Disease is most common in the lower to middle class, most caused by their diet and lack of exercise.

Keep your heart happy and healthy, eat healthy, go on walks, and see your primary care physician regularly.
