

### June News 2022

School's out and it's officially Summer!  
There are more teens on the road, and we need to be cautious during the  
"100 Deadliest Days of Summer."  
WG has some giveaways this month including Father's Day and a chance  
for you to **WIN \$1,000** beginning June 7th!

### The 100 Deadliest Days of Summer

Historically, from Memorial Day to Labor Day, teenage drivers are 25% more likely to be involved in a fatal car wreck. This is because they are out of school, often driving around with their friends, and are not skilled drivers. Parents need to make sure they teach their young drivers to put their phones away while behind the wheel, to always wear their seatbelt, and to

keep them accountable!

Since 2005, Burton has been known by "McGyver" at the firm. He is can fix any problem and do it with a positive attitude. Computer not working? Call Burton. Cloud issues? Call Burton. Ipad not speaking to your laptop? Call Burton. He is a legacy employee and has been with us for 17 years. For most of that time, he has been our marketing director, in charge of making the phone ring. In that position, he reports directly to me. That can be an hourly challenge because of the way I am wired. I can honestly say that WG would not be where we are today, serving others in our community, with thousands of

satisfied clients, without Burton Feagans. He is my employee of the month every month, not just for June. -  
C. Mark

## Employee of the Month

**Burton Feagans**
